

Reference Statement / Testimonial from Deborah Rogoff for Leslie Borodi at Rainbow Village Senior Living

1. How long have you known the person you are writing this reference for? I have known Leslie since April 2021  
To current day.

2. How do you know this person? \_\_\_\_\_  
I met Leslie when looking for somewhere to place my brother Steve. He invited me to tour his home, I interviewed the other residents, and saw just how he runs his day to day business of caregiving. I was immediately impressed with his kind outgoing and confident character. I got the feeling that everything would all work out and everything would be ok.  
He put my mind at ease.

3. Please give your opinion of this person's character. \_\_\_\_\_  
Leslie is a very conscientious man with high integrity and solid ethics. He has not skipped a beat and follows through with everything he commits to. If he cannot provide an answer to a question, he will seek out the answer and find an appropriate way to solve. Problem solving is another trait where Leslie excels.  
Leslie is honest and will go the extra mile for whatever my brother needs. Leslie has even learned my brothers likes and dislikes.  
Leslie has a very nice positive attitude that shows through in his every day interactions with his people.  
I fully trust Leslie and my brother Steve feels comfortable and very grateful to receive care from him.

4. Please describe any interaction you have observed between this person and the client group he/she is requesting to work with. For example: Clients may be children, developmentally disabled children or adults, mentally impaired adults, or elderly. \_\_\_\_\_  
Leslie is an extremely caring, kind, thoughtful and empathetic man. He truly imulates what anyone would wish for in a caregiver for their loved ones, family members or friends.  
My interaction with Leslie started when i was despirately looking for 24/7 care for my 62 year old brother Steve, who has Parkinsons and is on hemo dialysis. An industry friend introduced me to Leslie as an option for me to place Steve in a warm caring home. Leslie genuinly cares about Steve's welfare. Leslie makes home cooked meals as he has exquisit culinary skills and will offer meals based on what his tenants can eat. Leslie and I interact via text and phone on a regular basis and he's always there to respond back. Leslie has been there each time we have needed him.

5. Please add any comments you feel are relevant about this person and his/her desire to work in a community care facility. \_\_\_\_\_  
Whoever is lucky enough to live in Leslie's home has struck gold. Truly. I have visited with other care facilities and caregivers. No one lives up to the care provided by Leslie in his home. Our family feels blessed to have found Leslie and are extremely grateful for his service.
